PROFILE

I am a motivated developer currently pursuing a degree in Informatics Engineering, which I began in 2022 and will complete in 2026. My interests are Mobile, Web development; and Machine Learning, encompassing aspects such as data management, servers, code, UI, UX, and related fields.

WORK EXPERIENCE

Karanta

2024 - 2024

Front-End Developer

- Developed and maintained web applications using modern technologies such as VueJs, TypeScript, JavaScript, etc.
- Collaborated with cross-functional teams to deliver high-quality solutions.

MSM INC

2023 - 2025

Full-Stack Developer

- Managed relational databases using MariaDB and MySQL.
- Developed scalable RESTful APIs with Django, enabling seamless communication between systems.
- Built user-friendly and responsive web interfaces using Vue.js.
- Collaborated effectively within cross-functional teams, fostering a positive and productive work environment.

EDUCATION

Bachelor of Computer Science

2022 - 2026

School of Engineering | Gran Mariscal de Ayacucho University

High School Diploma in Science

2017 - 2022

U.E: Los Próceres | Anzoátegui - Venezuela

GPA: 3.8 / 4.0
